10:30 – 12:30 Module 1

13:30 – 15:30 Module 2

“Integrated evaluation criteria for sustainable regeneration of existing building stock”

The lecture aims to identify evaluation criteria and design strategies for the transformation and regeneration of the existing building stock in order to solve its critical and fragile aspects. Case studies on the main transformations in the national and European context will be presented with reflections on regulatory and normative aspects..
