12:30 – 13:30 Module 1

14:30 – 16:30 Module 2

Aula PN 9

“Main applications and research trends for advanced construction materials”

The lecture aims to overview the main applications of technologically advanced materials in the construction sector. The historical evolution of the advanced material concept and the current classification of building solutions are shown. Finally, the main research trends on the subject and future perspectives are illustrated.
